Key Personnel - The personnel specified below are considered to be essential to the work being performed hereunder. Prior to diverting any of the specified individuals to other programs, the Contractor shall notify the Contracting Officer no less than 30 days in advance and shall submit justification (including proposed substitutions) in sufficient detail to permit evaluation of the impact on the program. No diversion shall be made by the Contractor without the written consent of the Contracting Officer. Provided that the Contracting Officer may ratify in writing such diversion and such ratification shall constitute the consent of the Contracting Officer required by this clause.

_____   _____   _____

_____   _____

(End of Clause)

Contractor Non-Disclosure Agreement - By signing this contract the Contractor acknowledges and agrees to abide by the following terms with respect to confidential and privileged information, and critical energy infrastructure information (CEII), to which I may obtain access in the course of my work for the Federal Energy Regulatory Commission pursuant to Contract No. FERC04C50130.

A.   During the course of work for FERC, the contractor may at times have the need to access and view information that is marked as confidential, privileged or CEII (collectively referred to hereafter as "confidential information").

B.   The contractor will not provide confidential information to or discuss it with anyone other than FERC employees and authorized FERC contractors, except that confidential information may be discussed with the applicant, company or project from which the information originated.

C.   Any copies made of confidential information will be marked as such, in the same manner as the original.

D.   I will only use confidential information in performance of my work for FERC. When I have completed this work, I will return all confidential information to FERC.

E.   I acknowledge that a violation of this agreement may result in negative consequences and could affect my ability to contract with FERC in the future.
